The Nikon D5100 Digital SLR - creativity from any point of view

The D5100 is simply an outstanding, creative addition to Nikon's amateur range of digital SLR cameras. It features a host of "must have" brand new photographic and video tools that deliver superior performance and exceptional image quality. Not only that, it has refreshing versatility, being equipped with a swivel Vari-Angle LCD monitor and full HD movie capabilities. It effectively replaces the D5000 model, slipping effortlessly between the entry level [Nikon D3100](#) and pro-consumer [Nikon D7000](#). This brilliant Nikon D5100 offers many of the features of the high end D7000 without the price tag.

Buy the **Nikon D5100 with 18-55mm VR Lens** now by clicking on the image or link and benefit from FREE shipping* and low price. The D5100 body only and other Nikon D5100 bundles are also available.

The Nikon D 5100 is much more compact and easier on the eye than its predecessor the D5000. Consequently, it is closer to the D3100 and D7000 as far as styling goes. The addition of a side-hinging 3 inch Vari-angle LCD screen in the D5100 is a great step forward for enthusiasts, providing scope to take overhead shots, waist level candid, as well as fun self portraits which will appeal to many potential users.

Now you've see this ground breaking camerain action, click on the link to buy the **Nikon D5100 with 18-55mm VR Lens** and benefit from FREE shipping and low prices. The D5100 body only and other Nikon D5100 bundles are also available. For a more detailed review please read on.

Effects mode

Looking for a camera to stretch your creativity to it's limits, then check out the amazing array of special effects Nikon have been included, not only when taking still pictures but also when recording HD movies. For example, Night Vision can capture details in places too dark for your own eyes; High Key creates bright, glowing images filled with where as the mood of a scene

can be emphasized using Low Key.

Full HD 1080p D-Movie with Sound

Boasting full HD movie capability, the Nikon D 5100 enables exceptionally high-quality movie performance whilst Full-time autofocus tracks moving subjects. Superb stereo sound can be recorded using Nikon's optional ME-1 Stereo Microphone.

High Dynamic Range (HDR)

Do you find that scenes with extreme contrasts, such as bright, sunlit clouds and a foreground deep in shadow are notoriously difficult to photograph? Fed up with some sort of unsatisfactory contrast the unhappy outcome? With the D5100, Nikon has come up with the answer! Making it possible to render the textures of both equally by combining two exposures to create a single image revealing an extremely wide dynamic range.

Fantastic Image Quality

With a similar 16.2MP [CMOS](#) sensor offering a broad ISO range (ISO 100 to 6400) and EXPEED 2 image processing engine to the high end [Nikon D 7000](#), the [Nikon D5100](#) is able to deliver fantastic image quality with reduced noise and blur at an affordable price.

Continuous Shooting and Auto-focus (AF)

Don't miss any of the action with a high-speed continuous shooting with a capability of around 4 frames per second and enjoy great focus in every shot. This is achieved with the D5100's 11-point AF system which ensures your subject is captured sharply wherever it's located in the frame. Working together with the Scene Recognition System and 3D-tracking , the camera can keep your main subject in focus even if the composition changes.

Built in Flash

Shooting dark or backlit subjects is not problem with the D5100 as Nikon have included a built-in pop-up flash with intelligent flash control to automatically brighten your subject even when shooting outdoors in bright sunlight.

Compatible with NIKKOR lenses

One of the great advantages of an SLR camera is the ability to choose and change lenses and in this regard the Nikon D 5100 is a superb choice as it is compatible with the NIKKOR range. When choosing a lens, be sure to look out for one with vibration reduction (VR) to ensure you get sharp images every time. If you already possess suitable lenses then consider purchasing a **Nikon D 5100 body only**.

Summary

Whether this is your first SLR, you are moving over from conventional film, or simply upgrading, the Nikon D5100 offers an incredible array of functionality. It is a mid range [DSLR](#)

camera offering high end performance at an affordable price.
